PRACTICAL ACTION
Consulting

Practical Action Consulting is the new name for Intermediate Technology Consultants (ITC). For over 35 years we have provided development consultancy services as the consulting arm of the International NGO Practical Action, formerly Intermediate Technology Development Group (ITDG). We provide high quality independent and professional advice to governments, NGOs, aid agencies and the private sector. Practical Action Consulting has recently set up its South Asia office in Sri Lanka.

We work in the following sectors:

- Energy
- Transport
- Agro-processing & food production
- Irrigation, water & sanitation
- Business development services/SMEs
- Integrated urban development
- Housing & shelter
- ICTs
- Disaster mitigation

In order to be a part of the development process, you could also now register with us as an external consultant. Opportunities may be in country, regional or perhaps extend beyond South Asia as per the requirement. In addition to the excitement and satisfaction of being a part of a worthy cause, your contributions will be rewarded appropriately.

We believe in sharing best practice and information and are founders of or key members of, several international networks, including the International Forum for Rural Transport and Development (IFRTD), Sustainable Transport Action Network (SUSTRAN), the Building Advisory Service and Information Network (BASIN) and the Global Village Energy Partnership (GVEP)
