

Special Leaders Awards

All awards are open to three groups of pupils: Primary (5-11), Secondary (11-16) and Advanced (17-19). For all awards, pupils will be required to send an application to become a Leader for STEM for the school or college and complete an interview. Each 'Special Award' has its own theme and prizes, interviews can be entered into more than one category, see the website for more details www.leadersaward.com

Leaders Award

Special Award

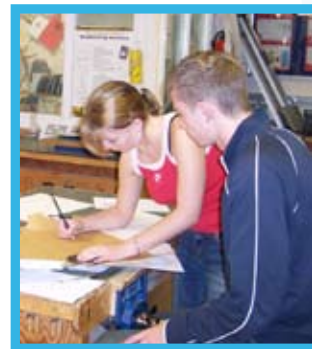

Practical Action Special Leaders Awards

Inspired by Sustainability?

To enter for this special award the interview that accompanies the Leaders application should have a specific dimension – Sustainability.

This is an individual award open to students who would like to interview people working in any area related to the development of technologies, products or services which reduce impact on the environment. More information can be found on the Leaders Award website.

The chosen interviews: Three students, one from each level, will be chosen from all the submitted interviews and a selection of interviews will be published on Practical Action's Education website. The Primary (5-11) and Secondary winners (11-16) will receive a fabulous solar powered media player. The Advanced (16-19) winner will also receive a fabulous solar powered media player and an opportunity to spend a day working with a sustainable product designer.
