

Grain processing, Peru

How to get
started

food for good

PRACTICAL ACTION
Technology challenging poverty

The Event

Decide what sort of event you want to hold, for example:

Dinner Party

Themed menu meal

BBQ

Coffee Morning

Bring your own course

A roving supper (different courses at different houses)

Dine out and donate!

Make sure you can cope with it, if you think a dinner party is too much for you to take on at the moment, have a coffee morning, just do something fabulous with food!

Take some inspiration from our enclosed recipe book where you can also read about other supporters events.

Then you need to decide on **where** you're going to hold it, **when** you'll hold it and **who** you will invite.

Let Us Know

When you've done this, complete your registration form and send it back to us.

Invite your Guests

You can do this number of ways, by using the invitation templates enclosed in this pack, by setting up a page on www.dinner4good.com/practicalaction or you can just give them a call!

On the day

Enjoy yourself! Have a fabulous evening with your friends, but don't forget to ask them for a donation if they haven't already given. You could suggest a minimum amount of £10 or ask them to pay what they thought the meal is worth. If they are happy to, get them to complete the green gift aid form, this means their donation will be worth an extra 28 percent.

What to do with the money

Send your donations in using the "Funds Collected" form and don't forget to tell us how your event went and attach any photos you have so we can inspire more people to hold an event like yours. We don't advise sending cash in the post so please send cheques made out to Practical Action to: **Community Fundraising, Practical Action, The Schumacher centre for Technology and Development, Bourton on Dunsmore, Rugby, CV23 9QZ**

Think it's newsworthy?

If you think your event is newsworthy, why not use the enclosed press release to shout about your dinner. It might inspire others to hold their own **Food for Good** dinner.
