Practical Action

ABOUT US
We are an international development organisation putting ingenious ideas to work so people in poverty can change their world.

We help people find solutions to some of the world’s toughest problems. Challenges made worse by catastrophic climate change and persistent gender inequality. We work with communities to develop ingenious, lasting and locally owned solutions for agriculture, water and waste management, climate resilience and clean energy. And we share what works with others, so answers that start small can grow big.

We’re a global change-making group. The group consists of a UK registered charity with community projects in Africa, Asia and Latin America, an independent development publishing company and a technical consulting service. We combine these specialisms to multiply our impact and help shape a world that works better for everyone.

OUR AIMS
We help people find solutions to some of the world’s toughest problems, made worse by catastrophic climate change and persistent gender inequality. Our aims are to:

- Make agriculture work better for smallholder farmers, many of them women, so they can adapt to climate change and achieve a good standard of living
- Help more people harness the transformational effects of clean affordable energy and reduce avoidable deaths caused by smoke from indoor stoves and fires.
- Make cities in poorer countries cleaner, healthier places to live and work.
- Build disaster resilience into the lives of people threatened by hazards – reducing the risk of hazards and minimising their impact on lives and livelihoods.

HOW WE WORK
We work on holistic solutions that change systems and have a framework to help us achieve our aims:

- Analyse the root causes of a poverty and vulnerability
- Define the change at scale we need to make
- Develop activities along three complementary paths: Demonstrate, Learn and Inspire.
  - Demonstrate that our solutions are sustainable in the real world
  - Learn by capturing evidence and adapting our approach
  - Inspire wider support to multiply our impact.
